IMPERIAL COACHING CENTRE

It's an organisation which aims at building a better India by providing high quality Education to the budding students of our country. The vision of the organization is to improve the quality of Education in our country. This vision derives itself from the belief that Education has the power to transform and change a person's life and hence the country's future. Our expertise lies in Science, Engineering, Medical and Government entrance exam coaching and that's where we begin. Most coaching classes follow what is called as the "Business Module". However, keeping in mind our experiences both as students and as professors we have come up with what we call the "Student Module". By providing an environment, which inspires students to develop a zest for learning. At ICC, students are considered sparks of divinity, and teaching is considered as a dedicated service towards divinity.
